NEW YORK POST BY TAMMANY

NEW YORK, Nov. 8.—Charles F. Murphy and Tammany Hall are in deep gloom today because of the possibility of their losing this city and the loss of the Legislature to Tammany. Murphy will be made now to Jan his charter for this city through a Legislature devoted to the interests of Tammany Hall in the borough of Manhattan, while in Brooklyn the Fusionist district and county ticket association, including elected.

How the people of New York State feel is indicated by the fact that the Democratic minority of twenty-four on judicial ballot in the Legislature has been turned into a Republican one of thirty or more. The Assembly will stand Republican and Fusionists, 100; Democrats, 41; Socialists, 1.

A year ago Tammany and the Bronx Borough gave Governor Fitts a plurality of 65,000 and elected a Democratic candidate for Governor by about 22,000. Yesterday Robert L. Foster, Democratic candidate for Surrogate, carried New York County by a maximum plurality of about 17,000.

The Democrats elected their candidate for sheriff by about 8,000 and the three Democratic candidates for Supreme Court Justice in the First judicial district by a bare 5,000. Francis M. Sloan, the fourth justice elected, was induced by both parties.

The Republicans elected eight Assemblymen in New York County and will benefit others members of that body out of the total delegation of thirty-five. The three Republican candidates for Supreme Court Justice in the Second judicial district, which comprises Manhattan, Queens and Richmond Counties, were elected with our possible exception.

William Willett, Jr., the Democratic candidate, who was charged with having the nomination, ran about 8,000 behind William, who is so close to the last man elected in the city that his fate is regarded in doubt until the last district was counted.

James C. Crosey, ex-Police Commissioner, who was the center of the fight in Kings County, was elected District Attorney by about 5,000.

The Republicans elected a sheriff in Kings County by about 14,000. In other out of twenty-four districts in Brooklyn the Democrats gained six Assemblymen.

NEW LONDON TO HAVE A REGULAR SLEUTH

NEW LONDON, Nov. 8.—For the first time in the 254 years of existence, New London will have a plain-clothes man on its police force. The Common Council has voted to employ such a person in an effort to keep the city free from burglars, which have been numerous recently. The new appointment will not make the force of the chief of police but will report to the Mayor and the Commission. Recently Mayor Maitland censured the police force vigorously for failure to stop the robberies.

SCHEENECTADY MAYOR IS SOCIALIST PASTOR

SCHEENECTADY, N. Y., Nov. 8.—For the first time in the history of the country, the Socialist have polled a county vote, electing a Mayor, all but one city officer, and a majority of the county officers. This will make the Communist and probably the county board of supervisors, all Socialist. The Mayor is E. J. Dunn, pastor of the United People's Church, and editor of "The Union," a Socialist paper of 1900. He defeated Mayor by a vote of 1,000.

DIPHTHERIA SCARE AT BOOTHBY OVER

BOOTHBY HARBOR, Me., Nov. 8.—The Board of Health believe that it has the diphtheria situation well in hand and are preparing to close the schools on the opening of the public schools next Monday. After diphtheria cases closed three weeks. During this time no church services have been held, all public gatherings have been canceled and special officers have been engaged to see that no carnivals have been strictly enforced.

LEADERS GIVE AMERICAN CREDIT FOR BIG DEMOCRATIC VICTORY

"Hats Off to the American," Says Chairman McDonald of the State Committee.

Governor Foss, John F. McDonald, chairman of the Democratic State Committee, and all the leaders of the Democratic party of the State, today in a declaration that the AMERICAN, as the party organ in this campaign, was responsible for the Foss victory at the polls. The independent vote victory at the polls. The independent vote victory at the polls. The independent vote victory at the polls.

"Hats Off," Says McDonald. JOHN F. McDONALD, chairman of the Democratic State Committee, today in a declaration that the AMERICAN, as the party organ in this campaign, was responsible for the Foss victory at the polls.

"A Potent Factor." JAMES H. STICK, chairman of the Democratic City Committee of Providence, today in a declaration that the AMERICAN, as the party organ in this campaign, was responsible for the Foss victory at the polls.

"Organ of Democracy." JOSEPH A. MAYNARD, chairman of the Democratic City Committee of Boston, today in a declaration that the AMERICAN, as the party organ in this campaign, was responsible for the Foss victory at the polls.

"Magnificent," Says Walsh. DAVID I. WALSH, candidate for Lieutenant-Governor, today in a declaration that the AMERICAN, as the party organ in this campaign, was responsible for the Foss victory at the polls.

"The well-known comfort of Ten Inch Upholstery lends a peculiar charm to this type of vehicle. This, together with perfect body building and trimming, makes the interior of the closed car, even on a noisy street, as quiet and soothing to the nerves as the upholstery has proved itself to be to physical comfort."

Here's the real Foss smile. A Boston American photographer "caught" the Governor this morning as he was reading an account of his election in the American.

Massachusetts would be in a bad way. JAMES H. STICK, former Democratic candidate for Governor, today in a declaration that the AMERICAN, as the party organ in this campaign, was responsible for the Foss victory at the polls.

FRANK J. DONAHUE, Democratic candidate for Secretary of State, today in a declaration that the AMERICAN, as the party organ in this campaign, was responsible for the Foss victory at the polls.

PROFESSOR DROPPERS. The result will be of political interest and great consequence to the Democratic party. The whole country has been waiting for the Massachusetts election, and Governor Foss's success must be considered a big factor in the result.

Suppose You Were a Miller, Madam—

And you bought choice wheat—

Then washed and brushed and scoured it—

Then ground it 20 times, through 20 rolls—

Then sifted the flour 10 times through silk, so that none but the cream came through—

All this without added price.

Suppose you did that. Would you consider a housewife fair to herself if she failed to get that flour?

That's what we do with Gold Medal—and more.

We even run a test kitchen, where we bake up samples of each day's run.

Just to be certain—all the time—that every sack of Gold Medal equals the best ever milled.

You can get that flour from any grocer if you'll only remember. Don't merely say "Flour," Say—

AID FOR SMALL-PAID WORKING GIRL

"Companionship and Advice Her Chief Need," Says Head of Willard Settlement.

By SYBIL WARNE.

Are you a five-dollar-a-week working girl?

Are you living alone in this city, trying to pay your board, your dress, and your washing on this sum, with other expenses?

Do not talk over your circumstances with Miss Nellie F. Hill, resident head of the Frances Willard Settlement House, No. 44 Chambers street.

Miss Hill, with a corps of workers, is making a specialty of this five-dollar-a-week working girl. The Settlement House of which she is the head, is devoting its efforts to helping these girls to help themselves. They are charged three dollars a week for board, lodging and washing.

The workers in that house tell them how to buy the material for a new dress and tell them how to make it.

Open Way to Education.

If a girl wants friends, they will put her in the way of making them. If she wants to improve herself by studying for some special calling, they will lend her money for that purpose, and in every way they are helping the girl who only gets five dollars a week to improve her chances in the world, and above all, they are teaching her that she has every friendship and companionship at the Settlement House.

Many girls who come to this house as working girls are today filling many important positions in life. Some of them have gone through college, some are in business, and others have improved their efficiency so as to get double the pay they formerly received.

"Our specialty is the five-dollar-a-week working girl," said Miss Hill, who is one of the most popular workers among the girls at the Frances Willard Settlement.

"Our estimated president, Miss Caroline M. Carver, has worked along these lines for years, and we think that we have done something to help this type of girl. I simply designate \$5 a week because it is hard under present conditions for the working girl who is alone in this city and has to pay for her room rent, washing, as well as food, to get along with her bare expenses on this sum. When a country girl comes to this city and has to work for this sum of money and make her struggle hard to meet her expenses, we tell her to come and live with us in this Settlement House. We have forty girls here at present.

Need of Companionship.

"We charge that girl \$3 a week for board, lodging and washing. She is at liberty to leave her apartments three times a week in our laundry. In other words, we put this girl in the way of making herself. Now she will want to make a dress for herself, and she will want to make something about buying the material for it.

"If she lived alone, what a struggle this would be! It is only this type of girl who only gets this sum of money to meet her expenses.

"Now we want to help her. We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

"We want to help her to make her own money. We want to help her to make her own money. We want to help her to make her own money.

NEW CLEWS IN VERMILYA CASE

CHICAGO, Nov. 8.—Police activity in the Vermilya case will be centered today upon a thorough investigation of the woman's connections with insurance associations. It has been learned that both Underwood Brown and Mr. L. L. Hertel were officially affiliated with insurance companies with which Mrs. Vermilya is said to have had dealings.

Although she was a week today that only her attorney, Joseph H. Burns, and her sister, Mrs. Loring Burdick, were allowed to visit her in the county jail house, Mrs. Vermilya appeared as usual at that time with her usual cool and calm manner.

"When I am strong enough, I shall make a detailed statement to my attorney, which I am sure will clear away any suspicion that may rest upon me," said the prisoner.

Comer Hoffman announced his intention of interviewing Brown and Hertel after they had received a report from the lawyers of Frank H. Haskins and Richard J. Smith, who are said to be the attorneys of Mrs. Vermilya's father, Mr. W. H. Vermilya, a prominent business man of Chicago.

A statement by an official of the Woodmen of the World that was saying the woman was a policy bearing the life of the woman's father, Mr. W. H. Vermilya, had worked industriously to induce her friends and relatives to take out policies in the Woodmen of the World.

The fact that the late Arthur Brown, killed by arsenic, was to have become a member of the Woodmen of the World, was said to have been his intention, and that Mrs. Vermilya, that C. A. Brown is secretary of a branch of the Woodmen of the World.

That Mr. L. L. Hertel is general manager of the Woodmen of the World, and also of the Home Life of America, was also said to have been the intention of Mrs. Vermilya, who was said to have been a member of the Woodmen of the World.

That Mrs. Vermilya collected \$1,000 from the Woodmen of the World, was also said to have been the intention of Mrs. Vermilya, who was said to have been a member of the Woodmen of the World.

THIS ADVERTISEMENT DOES NOT SATISFY ME—POSNER

Sometimes I write an advertisement that really satisfies me. Other times I write one that doesn't strike me as strong enough.

For the particular purpose I have in mind this advertisement is weak. But I want you—as a personal favor to a man who is trying his best to get your attention—I want you to overlook its weak points and think only of its good features.

You see, the magnificent tribute paid to my store by the men of greater Boston last Saturday—when every department showed gains of \$50 to \$500 over the corresponding day of last year—it is hard work to put into cold type my appreciation.

To convert this large increase of business into advertising is absolutely impossible.

It simply goes as it lays—a tremendous day's business—a

record-breaker in every way—number of sales—cash received—quantity and quality of goods delivered.

This advertisement is put out for the benefit of those men who didn't participate in last week's Posner celebration.

Your chance comes now—right after reading this ad. Make up your mind that the next article you need in men's wear will be bought at Posner's—have the Posner label on it—and that you will join the Posner army of buyers—the biggest array of well-dressed and intelligent men who ever traded regularly at one strictly men's store in America.

SUITS—OVERCOATS

Let me tell you something! If there is a more handsome—more distinguished—better fitting—neater styled or more exclusive line of suits or overcoats made on this earth than the Posner-Stein-Bloch clothes for men, then I have been asleep for the past 5 years.

The prices open at \$18 and close at \$55 and at some price between these two figures I can show you just the Suit or Overcoat you want.

Other good Suits and Overcoats, bearing the Posner label, carrying the Posner guarantee and standing for the Posner idea of "more value in everything for less money than anywhere"—sell at \$15—as low as I would care to offer a suit to the class of men who patronize my store.

Bear this well in mind! You can always get a better article for the same money or the same article for less money if you buy it at

DIAMONDS

We offer some of the best values in blue white, perfectly cut diamonds ever shown in this city. These diamonds are selected from our latest importation from our French agency, and vary in weight from 1/10 to 1/2 carat. Most dealers would be compelled to name prices on these diamonds nearly twice the price we quote. Select one of these fine diamonds and ask your respectable jeweler to examine it in person or return it to us if he does not want it. Its worth nearly double the price we ask, bring it back and your money will be promptly refunded.

Henry H. Hobbs, the famous football critic and one of the greatest gridiron writers in the world, has made his debut in his new article on how to play football in various positions on a football team, which appears in this morning's AMERICAN, will explain the duties of the backfield members in detail.

The backfield is the true mystic of the game. In order to form a winning team, a coach must first have the proper personnel for his backfield.

THE FIRST AMERICAN FOOTBALL player, who played the backfield position in the game so-called, the first American player, has played the backfield and has broken through its defense. He knows what the weak points are. He also knows where the strength lies.

In his article to-morrow he will point out how the backfield can be improved.

THE ELECTION

The victory of Governor Foss and the wonderfully near victory of Mr. Walsh, mark a new era in the political history of Massachusetts. This remarkable Democratic success is the combined result of intense Democratic loyalty and intelligent Republican independence and brave and intelligent public spirit on the part of the workmen of the State.

The Democrats of Boston and in the cities and towns throughout the State stood like a rock against the assaults of the Republican machine, armed to the teeth with a large campaign fund.

The progressive and independent Republicans refused to yield their ground through either fear or favor, declining all compromise with a reactionary machine still unrepentant and still unpurged of its stand-pat leaders.

The militant spirit of these Progressive Republicans, which will not tolerate the present stagnant machine, is one of the hopeful signs of the times. They are the real Republicans and there is not the least doubt in the world that if Lincoln were living in Massachusetts to-day he would have voted as these Progressive Republicans voted—for Foss and Walsh. It seems probable that these Republicans will continue to chastise the Republican organization while it remains under its present bosses. The Progressive Republican wants his party to move forward with the march of events, to keep in touch with the spirit of the times, to ameliorate the condition of the people and to cease being the organized dispenser of privileges to tax the people in exchange for campaign funds.

No such high purposes could move any party controlled by Senators Lodge and Crane; and, while the Republican organization remains under their control, the Progressive Republicans will never be content. This discontent means that the Republican organization must be recast in a different and better mould, or that the Democratic party will remain in power indefinitely.

But the great humiliation of the stand-pat leaders is the answer which the workmen in the mills and factories of the State gave to those demagogic appeals to their assumed ignorance and fears which Mr. Frothingham and Mr. Luce made throughout the Commonwealth.

These brave and intelligent workmen were unwilling that the general welfare should suffer merely because there might be a little apprehension among them that downward revision of the tariff would mean the closing of the mills and factories.

It was a brave and an intelligent decision by the workmen, and the manufacturers may wake up before long to learn that their employees were wiser than they. In the rest of the country there has been feeling against Massachusetts because her reactionary Senators stood for about everything that is unpopular in the country and have pressed the selfish demands of her manufacturers beyond all reason, conscience and statesmanship.

If, then, when the Democratic party comes into power at the next election, there should develop a disposition to revise the tariff in a spirit of hostility to Massachusetts industries, will not the interests of the workmen who are dependent upon these industries receive more respectful attention than if they had stupidly heeded the desperate appeals of their employers to crush the Democratic party?

By their decision yesterday the workmen have been wiser than their employers.

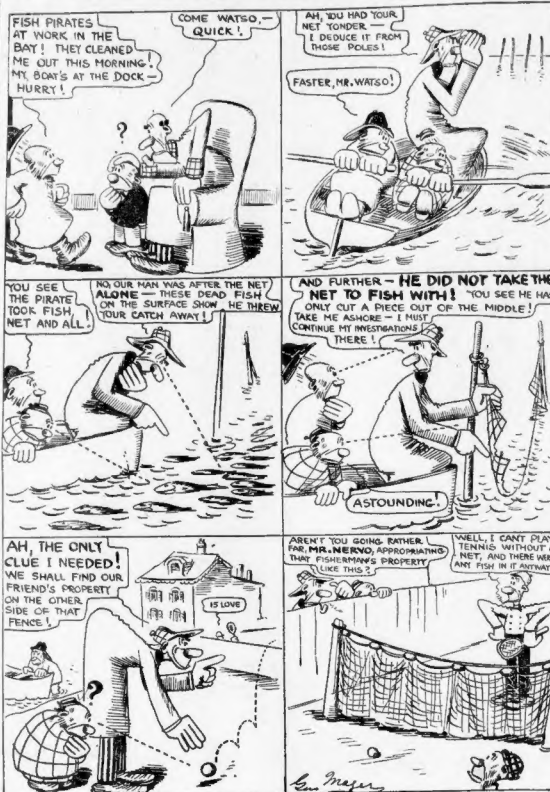

Mayor Fitzgerald prudently and loyally declined to defend himself against the attempt to recall him. Any controversy over this question would have injured the State ticket. Therefore, the attempt to recall the Mayor was permitted to take its course, and it failed, as it deserves to fail.

Mr. David L. Walsh was a tower of strength to the ticket and the AMERICAN deeply regrets his defeat.

The rest of the ticket fell because the independent Republicans did not form the habit of going down the ticket when they wish to repudiate the conduct of the party.

With the combined forces of the Democrats and Progressive Republicans, let us proceed to improve our laws next year, bringing the government nearer to the people, by the initiative, the referendum, the recall and a more rigid limitation upon campaign expenditures.

Russia's Refusal to Recognize American Passports

How Long Will This Be Tolerated in America? How Long Will Our Government Permit an Entire Class of American Citizens to Be Insulted by a Foreign Power?

Copyright, 1911, by American-Jewish Alliance

The question raised here has been discussed many times in this and in the other Hearst newspapers. For many years we have pointed out the shameful fact that the Russian Government is permitted to ignore a passport issued by the Government of America, when that passport happens to be presented by an American citizen of the Jewish faith.

Inasmuch as the Constitution of the United States and the Constitutions of all the States and the common sense and decency of the people forbid absolutely any religious discrimination in this country, why should the United States Government permit such discrimination against Americans on the part of a FOREIGN power, and above all on the part of such a Government as the Russian Government?

This condition, which disgraces the country, which justly offends a very large body of citizens and which insults the national dignity is simply due to indifference on the part of Government officials and to their lack of national self respect.

This fact, as our readers know, has been repeatedly emphasized in all of the Hearst newspapers for many years and at other cities.

What makes the insult to a great body of American citizens all the more offensive is the fact that this country gives welcome to Russians of all kinds—not even excepting the worthless, drunken, so-called "noble" relations of the Czar and other members of the Russian aristocracy that come here from time to time.

If a judge from one of our high courts or a great philanthropist—being a Jew—should appear at the Russian frontier with a United States passport he would be turned away—although a yellow dog or a leprous Chinaman would be permitted to go through.

And here in America we recognize ALL PASSPORTS OF THE RUSSIAN GOVERNMENT, SO LONG AS THEY ARE NOT ISSUED TO THE CRIMINAL OR INSANE. And as has been said, we even recognize passports borne by the most utterly worthless class of individuals on earth—the Russian grand dukes when they occasionally come over here.

It would not be a difficult task to change these conditions—so humiliating to the United States Government and to the people of the United States.

Congress should instruct the Secretary of State to inform the Russian Government that while Russia refuses to recognize the passports given to ANY class of American citizens the United States will refuse to recognize passports brought by any member of the Russian Greek Church. Give them their own medicine.

The United States pretends to protect the rights and the dignity of its citizens, and that is MERE PRETENSE as long as we permit the lowest European Government to insult systematically a large and worthy class of American citizens.

This question has been discussed long enough, and it should be settled NOW. If the voters of Jewish faith or ancestry will take up this matter energetically, if they will reason in letters to their Congressmen and to the President the shameful affront which this Government unjustly endures, the condition will change, and the Russians, as is the case with bullies, will see a light and change their method.

Below we publish an extract from an editorial which the Hearst newspapers published on May 12, 1903, eight years ago, under the heading "RUSSIA'S PERMANENT INSULT TO AMERICAN CITIZENSHIP."

It was preceded and followed by many editorials on the same subject. It is not time to stop talking and do something!

(Printed May 12, 1903.)

We have against Russia a permanent cause of complaint and interference in the fact that Russia refuses to recognize the rights of American citizens. She refuses to recognize our national passports when issued to Americans of Jewish faith. We quote from a document sent out by the State Department at Washington, a document in such frequent demand that it is kept printed for constant use:

DEPARTMENT OF STATE.

Washington, —

The laws of Russia exclude from Russian territory, except by special permission, all people of the Jewish faith, and, while this Government has been endeavoring for some years past to secure a relaxation of these enactments, it is only proper to warn those who are within the category to which they refer that it has not yet been able to secure from the Russian Government a promise of uniform treatment for all American travelers in Russia, without regard to their religious faith or place of birth.

An official and routine way of interfering with the Russian whole-sale murders might be found in this discrimination against American citizens whom the Russians refuse to recognize and to treat as decent human beings.

This country of the United States does not believe in the religion of Russia. It does not believe that the Czar is the earthly representative of God, or that the Russian Church can control men's souls here and hereafter. But, although we do not share the Russian religion, we allow those who do believe in it to travel about freely in our country, protected by the laws, as our Catholic, Protestant, Jewish and other citizens are protected.

At this moment a Catholic priest may not go to Russia unless he pledges himself in advance to abstain from discussing his religion. The same rule applies to Protestant missionaries. An American citizen of Jewish faith cannot go to Russia at all save by special permission.

The United States might at least express its disapproval of Russia's wholesale murders by informing Russia that until she makes up her mind to admit freely and to treat decently American citizens of the Jewish faith we shall refuse to recognize the passports of Russian citizens of the Greek Church.

Is it not a comment on our national character that we open our doors, and the doors of our homes, to a drunken, degraded Russian, because he happens to have a title, and we make no protest against the conduct of a nation that would put distinguished and valuable citizens of this nation on a par with criminals and diseased cattle?
